Upcoming Events

- ◆ February 21: Fourth Annual Command Round Table at Kitsap Conference Center

Fourth Annual Command Roundtable

Once again, SAME is hosting a Command Round Table for its member firms to engage local Service Chiefs, contracting staff, and other representatives in a spirited session of questions and answers. Do you have technical or contracting questions for Services? Curious about upcoming trends? Need to know who does what? This forum is an excellent opportunity to ask questions anonymously--or in person--and have them answered in a public forum. Last year, almost more than 90 firms sent delegates to this function, provoking a great information exchange that ran beyond the allotted time and truly engaged the Service representatives as well as the audience.

This year, the event will be held at the Kitsap Conference Center on 21 February 2012. Doors open at 08:00, and the meeting will run from 09:00 to 11:30, allowing time to get to Bremerton on the 07:35 Seattle-Bremerton ferry and walk from the ferry dock to the adjacent Kitsap Conference Center. The SAME February luncheon will follow the event at the same location.

Attendance at the event will be limited to two senior-level representatives from each representative firm. Each attendee is requested to submit a single question for consideration by the Services. SAME will compile and organize the questions, distributing them to the Services ahead of the event. A member of SAME's Industrial Affairs Committee will moderate the 21 February discussion, structuring it around the submitted questions. Questions will be addressed one by one, with an opportunity for follow-up questions by the audience, leading to some lively discussion! If time allows, the final 30 minutes of the event will be opened for direct questions to the Service panelists.

Reservations closed on 3 February, but limited seating remains. If you're interested in attending, please contact Ken Valder, the SAME Industrial Affairs Committee Chairperson (kenv@coopercm.com), for a seat. Event cost is \$30 per individual, collected at the door (cash or check only).

Thanks,

Ken Valder, PE, LEED AP

Be Where the Action is in 2012

No we are not talking about a spring time trip to Las Vegas; we are talking about the election of SAME Seattle Post Officers and Directors. The Seattle Post election will be held in May and the installation of officers will take place at the Meet the Chief meeting in June. The term of office will officially start on July 1st and be for a period of one year.

As always, we are seeking post members to take an active role in the operation and management of the Seattle Post. We will be nominating a new slate of officers and directors for the Seattle Post over the next couple of months. Many committee assignments are also available. Your participation in the Post operations and planning is what makes the Seattle Post the dynamic organization that it is. Are you interested in **BEING WHERE THE ACTION IS IN 2012**? If so call Bob Sundin at 425 269-3115 or e-mail at bsundin@wolfenet.com and find out where you fit it.

Post President's Corner

Happy New Year to everyone! As 2012 begins we are seeing what amounts to a historic turning point for the military as it winds down 10 years of war in Afghanistan and Iraq and shifts its strategic focus to the Asia-Pacific region and the Middle East. This means potentially significant changes in Defense Strategy, Force Structure, Equipment, and Budgets. With the Pentagon's release of a 2013 budget plan that would cut \$487 billion in spending over the next decade, the impact to base funding and infrastructure investment across all states and all services is in the process of being sorted out and is by no means minor. Now, more than ever, it is important to stay abreast of these changes through involvement with your local SAME post. Many of our members are extremely knowledgeable about these issues and are following the beltway budget machinations with a sharp and critical eye. As your Post President, I will encourage those members to share what they know with the general membership as well as bring the focus of future luncheon topics towards helping us understand some of the impacts and implications of these changes.

Your board of directors is also working on a number of exciting initiatives and programs that will make 2012 a great year. I encourage you all to attend some outstanding upcoming events, including: the Command Roundtable, the TechnoBowl, Meet the Chiefs, National Engineers week, and many others. Other exciting developments include:

- We are finalizing our streamer submissions this month and look forward to another year as a "Distinguished Post"
- Scholarship applications are just around the corner - so get the word out!
- Our new LinkedIn page is up and running (Check it out! Start a discussion! Make a comment!)
- Engineering Camp nominations are being collected now!
- Coming soon: on-line registration for luncheons and events.
- A personal invitation is on its way to you for periodic (whenever we are thirsty) Networking Happy Hours with the Post President (me!) Soon to be announced via the LinkedIn site.

Please continue to be engaged in the Post. Your volunteerism is what makes us a strong and sustainable post. There are plenty of opportunities for you to get involved. Simply come up and talk to any of the board members and/or committee members/chairs at any luncheon or event. You can also email me directly at mbautista@collinsengr.com or submit a post on our LinkedIn page. As always, your board of directors is looking for YOUR suggestions on how to make YOUR Post a value added investment of YOUR time.

Finally, due to the rising costs of catering and the transition towards an online service for luncheon and event registration/payment, we have decided to raise luncheon prices slightly: non-members increase by \$10 to \$40, members increase by \$10 to \$35, federal/military increase by \$5 to \$15; students will remain at \$5. The fee change will begin with the March 2012 luncheon.

Thanks again for all your support,

CDR Manny Bautista, PE, USN (Ret.)

SAME Seattle Post President

Local Firms Honored at 15th Annual SAME Engineering Excellence Awards

The Seattle and Mt. Tacoma Posts of the Society of American Military Engineers (SAME) hosted the 15th Annual Design Excellence Awards at Bell Harbor Conference Center on October 14, 2011.

The event celebrates design-build and design-bid-build projects that demonstrate a high degree of design excellence in support of the Society's federal agencies: Army, Navy, Air Force, Marine Corps, Coast Guard and the Public Health Service. This year, seven projects were recognized during the annual awards banquet.

In the small business category, **ORB Architects** received a bronze award for the new military family housing units project in the Galaxy Heights and Ravens Wood neighborhoods at Eielson Air Force Base. Not only was dilapidated, inefficient housing replaced, the new residential units represent a new standard in design aesthetic and criteria for Air Force housing. Each of the 129 new units includes individual color schemes and articulated façades to maintain the family's individuality; all incorporate contemporary residential amenities and design features to mitigate the extreme Arctic climate. The fast-tracked project was completed ahead of schedule, resulting in 251 additional days of occupancy.

Appledore Marine Engineering received a bronze award for the design/build construction of a new dual covered mooring at USCG Station Neah Bay. Horizontal wall panels on the facility's exterior replicate traditional Makah buildings. While translucent panels illuminate moorage areas during daylight hours, a weather screen protects two lifeboats, interior building elements and Coast Guard personnel in a significant wave environment. Station operations were uninterrupted during construction, despite the fact that the new structure was built within the footprint of the existing pier.

A silver award was presented to **FSi Consulting Engineers** for the Joint Base Lewis-McChord (JBLM) Tactical Equipment Maintenance Facility (TEMF). The large equipment motor pool area includes high-bay vehicle repair space, administrative and training functions in a multi-story facility, secured organizational storage buildings and hazardous material storage buildings. This is the first LEED Gold certified TEMF facility, featuring efficient mechanical systems, transpired solar panels, custom controls, daylighting and an efficient envelope that reduce energy consumption by 41 percent and water use by 54 percent. Eighty-nine percent of construction waste was recovered.

The USCG Interagency Operations Center at Yerba Buena Island, submitted by **ECH Architecture**, received the gold award in the small business category. This new command center co-locates operations previously housed in multiple base facilities and serves as a coordination point for local responders to strategize with USCG commands. This essential facility is assured uninterrupted operations through redundant mechanical systems, UPS and emergency power provisions. The project was certified with a LEED Silver rating through its integrated design approach and emphasis on environmental stewardship, energy and water conservation and efficiency.

In the large business category, a silver award was presented to **Reid Middleton** for the Naval Avionics Calibration Laboratory Relocation and New Security Building Restoration at Naval Air Station Whidbey Island. Carefully planned equipment moves were required to relocate the high profile calibration laboratory that serves the entire Pacific Rim, and the new location included a specialized deep foundation for calibration equipment that is highly vibration sensitive and must be isolated from the building slab. The

second half of the project involved upgrading a 1960s-era building into a highly secure and specialized training, equipment storage and operations center for NASWI Security forces.

Bezek Durst Seiser was awarded a silver award for the US Coast Guard Cordova Family Housing project. This 24-unit housing project presented unique challenges of designing homes that could accommodate the special needs of Coast Guard families, the remote location and the environmental context of the region, including heavy precipitation and winter temperatures of 15 degrees. Arctic design features include protected doorways, roofs constructed for heavy snow and snow slide offs as well as pedestrian foot paths. Storage areas accommodate bulk food and household supplies for these families that are limited by plane or boat accessibility. In addition, garages have capacity for cargo containers to help transitioning families. The development received LEED Silver certification based on square footage, energy consumption and overall reduced environmental impact.

Notkin Mechanical Engineers was presented with the gold award for the 16,900 sq ft JBLM Nisqually Clinic Addition. Sustainability was a priority for this outpatient medical and dental facility. The solar hot water system represents the first installation of its kind on the base, contributing almost 40 percent of the clinic's total domestic hot water need. The solar system also addressed renewable energy requirements while supporting healthcare excellence for soldiers and their families.

Other finalists for these awards included **AHBL** for the JBLM BCT Complex Increment 4 Roadways and Utilities, **Sparling** for the Naval Hospital Bremerton Backup Power System Repairs, and **Tetra Tech** for the Malmstrom AFB Community Activity Center.

Brigadier General John R. McMahon, who commands the Northwestern Division, U.S. Army Corps of Engineers, was the guest speaker.

Remember the Keynote Speaker Anna Liotta From the SAME JETC? Here's an Update

Unlocking Generational CODES is now available worldwide!

Whether you're a Traditionalist, Baby Boomer, Gen Xer, or Millennial (Gen Y), this book will change how you perceive others and enhance your relationships with everyone you know.

Unlocking Generational CODES is the key to understanding the people around you—young and old and in between. Generational expert Anna Liotta takes readers on a journey of how members of each generation think, behave, and engage. (continued next page)

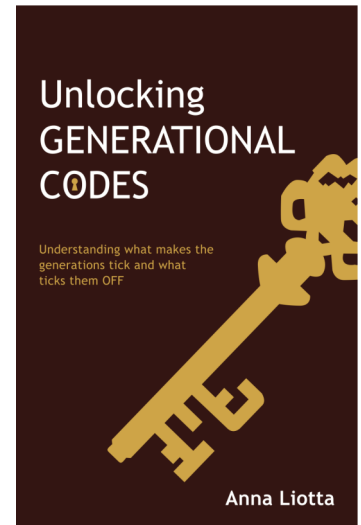

You will learn:

- The secrets of selling products and services to the different generations.
- How various generations define work ethic.
- How technology can bridge or break down generational communication.
- What you need to know as a manager to find and retain new talent.
- What defines each generation, including pivotal events and experiences that shaped it.
- The truths and lies behind generational stereotypes.
- The five areas that make up CODES:

Communication, Orientation, Discipline, Environment, and Success.

- How to transform your knowledge about Generational CODES into success.

Unlocking Generational CODES will enrich your life as you finally come to understand: “What Makes the Generations Tick and What Ticks Them OFF!”

SAME Tours The Ballard Locks

We had about ten attendees for the tour of the USACE-operated locks. Much appreciation goes to the Tour Team - Dru Butterfield, Natural Resources Manager; Mike Likavec, Structural Engineer; and Chuck Ebel, Biologist - for providing a lot of information about the operation, maintenance and repair issues at the two locks and the dam that control traffic, water elevation, and fish passage between Puget Sound and Lake Union. Special thanks to David Carpenter, Navigation Facility Supervisor, and Marian Valentine for arranging special access to the locks for an “in-sider” view of the facility.

Retired Col. Steve Miles to Lead David Evans' Federal Group

PORTLAND, OR – Sept. 7, 2011 – **Steve Miles** has joined David Evans and Associates, Inc. (DEA) as vice president and federal market team leader.

Miles recently capped a distinguished 26-year career with the Army. He was most recently commander and district engineer for the Portland District of the U.S. Army Corps of Engineers which has one of the most comprehensive and diversified civil works programs in the U.S. He is a decorated veteran and has served domestically in Oregon, Hawaii, and Washington, and overseas in Iraq, Japan, Germany, South Korea, and Turkey. Miles holds a bachelor's degree in civil engineering, a master's degree in business administration, and a master's degree in strategic studies. He is a licensed professional engineer in Oregon and Virginia.

"We are delighted to have Steve on our team," said DEA CEO Al Barkouli. "His comprehensive knowledge of the needs and processes of federal agencies will allow us to more effectively provide services to our federal clients. Federal work accounts for a sizeable amount of DEA's annual revenue.

"The past two years have been challenging for our industry and for DEA," said Barkouli. "2011 has been a good year for DEA and we are excited to be aggressively building our base of leadership." DEA also recently hired four veteran transportation executives to augment its bridges, light-rail transit, and railroad leadership groups.

Miles is based in DEA's Portland office, the firm's largest with about 200 employees. DEA has been involved with several recent infrastructure projects in the Portland metropolitan area, including the Columbia River Crossing, the Portland streetcar project, and the Sellwood Bridge redesign. DEA was the lead engineering designer for the Airport MAX, the Interstate MAX 10C segment, and the South Corridor I-205 segment. DEA's marine services division is providing hydrographic surveying in the Willamette River, the Columbia River, on the Oregon Coast for NOAA and the U.S. Army Corps of Engineers.

COL Steve Miles (Retired)

For more information about DEA, visit www.deainc.com.

A promotional graphic for the SAME 2012 Golf Tournament. The background is a close-up of a golf ball on a green tee. The text is overlaid on the image. At the top, it says "SAME GOLF" in large, bold, white letters. Below that, it says "We are Different This Year:" in white. To the left of this text is a circular logo for "The Society of SAME American Military Engineers". Below the logo, it says "New Date! New Format! New Pricing!" in bold white text. At the bottom, it says "SAME 2012 Golf Tournament Friday, June 29th, 2012 1:00 pm Tee Time" and "Stay tuned for more..." in white.

Are You Smarter than a 12th Grader?

Want to find out whether you're smarter than a 12th grader? Well come join us at TECHNOBOWL! We are preparing for the 12th annual Technobowl competition and need your help! As you all know, the SAME Seattle Post sponsors this annual event, which is a "jeopardy" styled math and science quiz competition between high school students from all over WA state. This year's event will be held on Sat, April 21st on the UW Campus (in conjunction with UW's Engineering Discovery Day). This is a great opportunity to reach out to our future engineers and scientists and as well as support SAME in making this year's competition a success!

We are in need of prizes for the winning teams (4 prizes each for the 1st, 2nd, and 3rd place winners) and give aways for our competitors - pens, squishy balls, notepads, markers, cups, and other similar items. We need about 60 pieces of whatever item you can donate to this worthy and fun cause! Please let us know what you can contribute and we will gladly come to your office and pick up your donation.

Also, we're in need of 15 volunteers to help out on the day of the event. If you are interested in volunteering, please contact Joy Chen, event coordinator, at 425.802.0582 or via email at joy.chen9@ch2m.com

In addition, if you or someone you know have a son/daughter in high school who would like to show off their brain power, please let Joy know as we'll be opening up the registration for this year's event. In order to be qualify for the competition, the contestant will need at least one coach (teacher/parent) and up to four students to make up a team. There are only 17 slots available (15 competing teams plus two alternates), so contact Joy as early as possible and she can provide you with the application form and detailed information about the event.

Your support is greatly appreciated!

2011 Winner: Woodinville High School

Seeking Young Member to Serve on Board of Directors

The Seattle Post is seeking a Young Member Director to join our board of directors. A primary objective for this position is to work with other board and committee members to develop and lead initiatives to: (1) engage our young members in Post activities, and (2) increase Young Member membership. If you are age 35 or younger and potentially interested in serving your Post in this important role, please contact Bob Sundin, Nominations Chair, at (425) 643-1553 (bsundin@wolfenet.com) or Joy Chen, Past Young Member Director, at (425) 233-3311 (Joy.Chen9@CH2M.com).

2012 Scholarships Available

By John Souza, Post Scholarship Committee Chair

Do you have a dependent or know of someone who is or will be pursuing a degree in Engineering, Science, Technology, or a related field and needs a scholarship?

If so as a member of the Seattle Post you can sponsor the student's application for up to a \$2,500 scholarship.

This year the Puget Sound Engineering and Science Scholarship Fund (PSE&SSF) will be awarding scholarships totaling \$30,000 on behalf of the SAME Seattle Post. Seven scholarships will be awarded to Post Member-sponsored applicants (5 Post Member-sponsored scholarships at \$2,000 each and 2 Post Member-sponsored scholarships at \$2,500 each) and another ten scholarships will be awarded to graduating high school seniors (10 High School scholarships at \$1,500 each). High school students who apply for Post Member-sponsored scholarships are automatically included in the high school scholarship pool if they are not selected for a Post-sponsored scholarship. The final number and amount of scholarships may be adjusted based on the number and quality of the applications as well as additional funds which may become available.

The Seattle Post member-sponsored scholarships are open to all student applicants who meet the following criteria:

Must be a US citizen.

Must be a dependent of or sponsored by a current member of the Seattle Post. Each Post member may sponsor multiple dependents or one applicant who is not a dependent.

Applicant may be either currently enrolled as a full-time college student or be a graduating high school senior. The applicant must be enrolled in or be accepted into a full-time program leading to a Bachelors of Science (BS) Degree in the fields of engineering, science, technology, or a related field at an accredited college or university.

If a graduating senior, the applicant must have graduated from or be scheduled to graduate from an accredited high school, public or private, in 2012.

Important Submittal Instructions:

Follow the links provided to obtain and complete a scholarship application. The deadline for receipt of completed scholarship applications is **Friday, March 23, 2012**.

A completed application may be submitted in one of two ways.

Electronically is the preferred method of receipt. Click on the following link to make your way to the online application form: <https://psessf.wufoo.com/forms/psessf-scholarships-a-2012/>. You will have the ability to upload an electronic copy of your transcript using this submittal method. Please make certain that the transcript file you upload is in Adobe Acrobat .pdf format.

Completed hard-copy application form sent by means of the US Mail to PSE&SSF. If submitting a downloaded paper application, follow this link to download the Adobe pdf file: <http://www.psessf.org/index-2.html>.

The file is named as follows: *Scholarship Application Form 2012 31Jan2012.pdf*

Please ensure that your application is typed. Please postmark the completed application by March 21, 2012 to ensure receipt by **Friday, March 23, 2012**.

Mail downloaded paper applications to the following address:

PSE&SSF SCHOLARSHIPS
PO Box 31571
Seattle, WA 98103

Please ensure that you submit a hard copy of your academic transcript along with your completed application. If possible, please place both documents in the same envelope.

Completed scholarship applications will only be accepted during the **scholarship application acceptance period (February 01, 2012 through March 23, 2012)**.

Thank you for submitting your application to the Puget Sound Engineering & Science Scholarship Fund Scholarship Program. Your time and effort are appreciated.

If anyone has any questions concerning the application or Seattle Post scholarship process, please feel free to contact me by E-mail or phone.

E-mail: jsouza@ktainc.net

Mobile: 425.301.8920

Thanks again, John

**Please see pages 12-19 for Scholarship Application*

Merit Program by the Seattle Post

The Seattle Post continued with our Merit Recognition program wherein we recognize active and reserve military members who were deployed in support of the GWOT and who made significant contributions in the field of engineering while deployed. The Seattle Post solicited input from all the military Services represented in the greater Seattle area including Navy, Army, Coast Guard and USAF. Nominations were reviewed and evaluated by committee. As a result of this review process the Seattle Post provided Merit Recognition to Senior Master Sergeant Pritchett, USAF 446th Engineering Squadron, and Technical Sergeant Seekins, USAF 446th Engineering Squadron, for continuing education, to the US Army 555th Engineer Brigade in the form of a Grant to pay for postage and shipping of packages to wounded warriors, and to LT Matt Manskar (CEC, US Navy), of Naval Facilities Engineering Command Northwest, and family, for family strengthening. We will present the awards at the respective command/units in the January timeframe. Pictures will be forthcoming.

Robert F. Parker P.E.
General Manager
West Sound BOSC

Only Nine Months until Design Excellence Dinner!

Did you enjoy our 2011 Design Excellence Dinner? Did your project win an award? Get ready, because here comes 2012! We're still in the early stages of planning (i.e. Marty is reminding Ralph it's time to get started). Not messing with success, we intend to return for the dinner to the Bell Harbor Conference Center in mid-October. Now's also when we review our rules, so if you have ideas about eligibility or submissions, now's the time to comment. It's not too early to start thinking which of your projects would make good entries. Finally, if you want to join the team, please let Ralph know at graves.r@portseattle.org.

Membership Update

The Seattle Post continued to show healthy growth in 2011. At year's end, we had a total of 698 Individual Members and Sustaining Member Representatives, a net increase of 62 for the year. These numbers do not include Student Members. We currently have 19 Student Members, of which four joined in 2011. We also have 112 Sustaining Members (public or private firms), of which 16 joined or renewed their memberships in 2011. Sustaining Members can designate up to five Sustaining Member Representatives; one of the five representatives must be a Young Member (age 35 or younger). Our membership roster currently includes 53 Young Members, of which 44 are Sustaining Member Representatives.

Individual and Sustaining Members that joined the Seattle Post between January 1 and April 27, 2011 were listed in the Spring 2011 newsletter. We extend a warm welcome to the following Individual and Sustaining Members that joined our Post between April 28 and December 31, 2011:

PSE&SSF Scholarships – 2012

Scholarship Application Form

Important Submittal Instructions:

Completed scholarship applications will only be accepted during the scholarship application acceptance period -- **February 01, 2012 through March 23, 2012.**

Please submit your completed application to PSE&SSF no later than **Friday, March 23, 2012.** A completed application may be submitted in one of two ways.

a) Electronically (preferred method of receipt). Click on the following link to make your way to the online application form:

<https://psessf.wufoo.com/forms/psessf-scholarships-a-2012/>

You will have the ability to upload an electronic copy of your transcript using this submittal method. Please make certain that the transcript file you upload is in Adobe Acrobat .pdf format.

b) Completed hard-copy application form sent by means of the US Mail to PSE&SSF. If submitting a downloaded paper application, follow this link to download the Adobe pdf file:

<http://www.psessf.org/index-2.html>

The file is named as follows: **Scholarship Application Form_2012_31Jan2012.pdf**

Please ensure that your application is typed. Please postmark the completed application by March 21, 2012 to ensure receipt by **Friday, March 23, 2012.**

Mail downloaded paper applications to the following address:

PSE&SSF SCHOLARSHIPS

PO Box 31571

Seattle, WA 98103

Please ensure that you submit a hard copy of your academic transcript along with your completed application. If possible, please place both documents in the same envelope.

Thank you for submitting your application to the Puget Sound Engineering & Science Scholarship Fund Scholarship Program. Your time and effort are appreciated.
